PROFESSIONAL SUMMARY

Results-driven **Python Full Stack Developer** and BCA graduate with hands-on web development internship experience building scalable web applications and intelligent solutions. Proficient in full-stack architecture using **Python (Django/FastAPI)**, **Node.js**, dynamic frontends with **HTML, CSS, JavaScript, React.js**, and database engineering across **SQL, PL/SQL, and MongoDB**. Strongly backed by solid fundamentals in **Data Structures & Algorithms (DSA)**, **C++**, and object-oriented design. Experienced in building enterprise applications, integrating secure payment gateways, and implementing REST APIs.

TECHNICAL SKILLS

Core Languages	Python, C++, Java, C, JavaScript (ES6+), SQL, PL/SQL
Frontend Technologies	HTML5, CSS3, JavaScript, React.js, Responsive Web Design
Backend & Frameworks	Python (Django / FastAPI / Flask), Node.js, Express.js, RESTful APIs
Databases	SQL, PL/SQL (Relational Systems), MongoDB (NoSQL)
Core CS & AI	Data Structures & Algorithms (DSA), AI/ML API Integration, OOPs
Tools & Workflows	Git, GitHub, Postman, Vercel, Linux/Unix

INTERNSHIP & PROFESSIONAL EXPERIENCE

Web Development Intern

15/10/2024 – 14/01/2025

Sharda Council for Vocational and Technical Education (SCVTE)

- Designed, engineered, and successfully deployed **TukTuk**, a full-stack e-commerce web platform built with complete frontend and backend integrations.
- Architected responsive user interfaces and designed RESTful APIs to ensure smooth data processing between client and server.
- Implemented secure user authentication, product management, shopping cart state control, and integrated secure payment gateways.
- Utilized **SQL, PL/SQL, and MongoDB** for efficient schema design, query optimization, and structured database operations.
- Applied real-world software engineering practices, agile problem-solving, and efficient code debugging techniques.

KEY PROJECTS

TukTuk – Full-Stack E-Commerce Platform

Deployment Ready

Python / Node.js React.js Express MongoDB SQL

- Developed a high-performance e-commerce website allowing users to seamlessly browse products, manage carts, and execute online orders.
- Engineered REST APIs for dynamic inventory tracking, user profile management, and payment gateway workflows.
- Leveraged relational and non-relational database queries for optimized execution speeds.

AI-Powered Intelligent Web Assistant

Key Innovation

Python FastAPI AI Integration PL/SQL C++

- Built an intelligent web system incorporating AI APIs to automate content creation and handle dynamic user query resolution.
- Optimized memory management and key data processing algorithms using **C++** and advanced **Data Structures**.

EDUCATION

Bachelor of Computer Applications (BCA)

Graduating 2026

Mahatma Gandhi Kashi Vidyapith (MGKVP)

Core Coursework: Data Structures & Algorithms (DSA), Relational DBMS (SQL/PL-SQL), Web Development, Object-Oriented Programming (C++/Python/Java), Software Engineering.

CERTIFICATIONS & ACHIEVEMENTS

- Full-Stack Internship Certification:** Successfully completed internship program at Sharda Council for Vocational and Technical Education (SCVTE).
- End-to-End E-Commerce Build:** Developed and deployed the *TukTuk* e-commerce platform from scratch to production-ready status.

• **Technical Excellence:** Proven proficiency in REST API architecture, database management (SQL/PL-SQL/MongoDB), and algorithmic problem solving.

SOFT SKILLS

Problem Solving • Algorithmic Logic • Team Collaboration • Technical Communication • Debugging

LANGUAGES

English (Professional) • Hindi (Native)
